PROJECTS

Fitbit Fitness Tracker Data Analysis
📅 12/2023 - 02/2024
🔗 https://colab.research.google.com/drive/16mCgpP6Q6ny5PVU83Y3YMr_KI9uNo1I1?usp=sharing

Experienced in analyzing Fitbit Fitness Tracker Data using Python for data cleaning, transformation, visualization, and analysis as part of a training exercise. Worked on multiple datasets related to daily activity, calories, intensities, steps, heart rate, sleep, and weight log information.Calculated descriptive stats, BMI categories, and performed data analysis using visualizations like scatter plots, line plots, regression plots, and Boxplots. Documented findings in a comprehensive report aligning data with real-world trends.
